1. It is requested that a copy of the scholarship application form mentioned in reference be forwarded to headquarters as the biographical data thereon will eventually be needed for submission of the necessary FPO. It will also be of assistance in the event that the application is not acted on favorably in Germany and headquarter's intercession becomes necessary.

2. Although we have no idea as to the ratio of applications submitted and the actual number of scholarships available, we should think that the chances of subject's son being accepted on his own merits are relatively good considering his family background and the professional and official stature of subject. We are hopeful, therefore, that intercession on our part will not be required although as we advised in DMR 34520 such arrangements can be made if necessary. In this regard, we think the suggestion in paragraph one of FRAM 4812 to secure the names of all accepted candidates through the office of the Cultural Attaché is a good one as we would thus be assured timely notice of whatever decision is made.

3. Incidentally, we feel that 600DM for "pocket money" is cutting it a bit close particularly if this amount is to cover a full calendar year but that matter can be adjusted when the time comes. We trust that you will keep us currently informed of all developments in this matter.
